

Santunu Kaysar Mahin

(+880)1888735883 | santunukaysarmahin@gmail.com | [LinkedIn](#) | [GitHub](#)

Computer Science student with strong foundations in full-stack web development and competitive programming. Seeking opportunities to apply technical expertise in solving real-world problems and contributing to impactful software projects.

EDUCATION

Institute of Computer Science and Technology | Feni, Bangladesh

Dec. 2025

Diploma in Computer Science and Technology | CGPA: 3.5/4.0

- **Courses:** Files and Databases, Modern Web Development, Data Structures & Algorithms, Foundations of Programming

TECHNICAL SKILLS

Languages (ordered by proficiency): C++, Python, Java, JavaScript

Competitive Programming: LeetCode, Codeforces, CodeChef

Databases: MySQL, SQLite

Tools and Frameworks: Django, Docker, Git, Linux (Ubuntu)

PROJECTS

IqraNest | Own Project

Jun 2025 – Present

- ***IqraNest*** – Created a platform combining audiobooks and text to make reading easier, more engaging, and accessible for users who prefer listening and reading together.
- **Tech Stack:**
Frontend – HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, Bootstrap
Backend – Python, Django, SQLite, JSON, SMTP (email integration)

Programmers-Agent | Own Project

May. 2025

- ***Programmers-Agent*** – AI Discord Bot for Programmers and Problem Solvers: An AI-powered Discord bot that delivers LeetCode problems, personalized hints, and algorithm explanations to support coding interview prep. Optimized with async I/O, adaptive caching, and deepseek integration for intelligent responses.
- **Tech Stack:** Python, discord.py, GraphQL, Deepseek API, VS Code, GitHub

ServerCodeSociety | Dynamic Website - Institute Project

Oct. 2024

- ***ServerCodeSociety*** – My first dynamic web project, where I applied my technical expertise to develop innovative solutions for programmers and problem solvers.
- **Tech Stack:**
Frontend – HTML5, CSS3, JavaScript (ES6+), Bootstrap
Backend – Python, Django, SQLite, JSON

INTERESTS

Problem Solving – Active in competitive programming platforms such as LeetCode (200+ problems solved, 1500+ rating), Codeforces, and CodeChef.

Interest in SDG – Completed a certified course on global climate-related challenges and sustainable development ([Certificate of Completion](#)).

Reading Self-Help Books – I enjoy reading non-fiction books.
